'VISIT OAK HALL" G. W. SIMMONS & CO.

Oh, My Back!

That's a common expression and has a world of meaning. How much suffering is summed up in it.

The singular thing about it is, that pain in the back is occasioned by so many things. May be caused by kidney disease, liver complaint, consumption, cold, rheumatism, dyspepsia, overwork, nervous debility, &c.

Whatever the cause, don't neglect it. Something is wrong and needs prompt attention. No medicine has yet been discovered that will so quickly and surely cure such diseases as Brown's Iron Bitters, and it does this by commencing at the foundation, and making the blood pure and rich.

> Logansport, Ind. Dec. 1, 1880.
>
> For a long time I have been a sufferer from stomach and kidney disease. My appetite was very poor and the very small amount I did eat disagreed with me. I was annoyed very much from non-retention of urine. I tried many remedies with no success, until I used Brown's Iron Bitters. Since I used that my stomach does not bother me any. My appetite is simply immense. My kidney trouble is no more, and my general health is such, that I feel like a new man. After the use of Brown's Iron Bitters for one month, I have gained twenty pounds in weight.
>
> O. B. SARGENT. Logansport, Ind. Dec. 1, 1880.

Leading physicians and clergymen use and recommend Brown's Iron Bit-TERS. It has cured others suffering as you are, and it will cure you.

SOLDIERS now suffering from wounds or dis ry service are entitled to Pension. Widows, mi nor children, dependent mothers or fathers of soldiers who died from the effects of their service are also entitled. Many invalid pensions are entitled to an increase. Careful assistance given in delayed or rejected claims, as many can be allowed with but little more evidence. Complete instructions with references sent on application. CHAS. & GEO. A KING. Attorney-at-Law, 916 F. St., Washington, D. C.

SUSTAIN THE VITAL FORCES

The importance of the nervous system, the direct bearing which it has on human happiness, its use and the danger of overtaxing it, whether through intense mental application or by the excessive indulgence of the appetiter and propensities, are proper subjects for consideration. When the nervous system is deranged it is absolutely necessary to seek advice from an expert, who for years has devoted his whole time and attention to this study and whe from a large experience, and practice has learned to discover at a glance the cause and as promptly apply the remedy. If the brain and nervous system has become exhausted by intense mental application, depriving it of the power of connecting thought, it can only recover its strength by being fed and nourished by the use of certain systematic methods. I can communicate much that pertains to the over exercise of every department of the nervous system, and the means of recovering its powers, whether of brain, appetite propensity or passion. Address with stame, CHAS, A, BARNES, M. D.
